

Micro Focus provides innovative software that helps companies to dramatically improve the business value of their enterprise applications. Micro Focus Enterprise Application Modernisation software enables customers' business applications to respond rapidly to market changes and embrace modern architectures with reduced cost and risk.

We serve more than 5,000 customers and one million licensed users. Our corporate customers provide service to hundreds of millions of consumers and business users in all the major economies of the world, especially North America, Japan and Europe. We also work with a variety of partners, including systems integrators, platform providers, resellers and other technology companies, to extend our capabilities.

Our ability to deliver evolutionary and cost-effective solutions is sustained by our commitment to remaining at the forefront of technology and product development.
